PRESSURE POT

We experience in the abrasive blasting industry, this experience has been used to develop the Pressure Pot, a Pressure Pot ideally suited to both open blasting and blast room applications

Our Pressure Pot Standard Features:

- Pressure Pot Designed and Manufactured in Accordance with Standards
- All Automatic Pressure Pot are Fitted with CRV Type
Provides simple and efficient operation
- Pressure Pot 300 Lbs and 600 Lbs are fitted with Minor Type Abrasive Flow-tungsten carbide plunger within urethane sleeve provides long life and precise abrasive flow adjustment
- Pressure Pot 300 Lbs and 600 Lbs are fitted with extra wide pneumatic all terrain wheels- provide added stability and maneuverability for on site work
- 20 M Fitted Pressure Pot Hose with Tungsten Blast Nozzle
- Galaxy Blast Helmet Complete with Air Conditioner
- Breathing Air Filter and 10 M Breathing Air Line

PRESSURE POT FEATURES

MODEL	110 BP	300 BP	600 BP
Pot Abrasive Capacity (Volume)	31 Litres (1.1 ft ³)	85 Litres (3 ft ³)	170 Litre (6 ft ³)
Remote Control Valve	-	CRV Type	CRV Type
Abrasive Valve	Ball Valve	Minor Valve	Minor Valve
CLX Control Handle	-	Std	Std
Pressure Relief Valve	Std	Std	Std
Pressure Gauge	Std	Std	Std
Blast Hose	13mm.x28mm.x20 M. With Steel Coupling & Nylon Nozzle Holder	25mm.x38mm.x20 M. With Nylon Coupling & Nylon Nozzle Holder	32mm.x48mm.x20 M. With Nylon Coupling & Nylon Nozzle Holder
Blast Nozzle	No.5s Tungsten Carbide With Aluminium Jacket	No.5 Tungsten Carbide With Aluminium Jacket	No.6 Tungsten Carbide With Aluminium Jacket
